Hand Cleaner

AC's Hand Cleaner is a high performance, general purpose cleaner with a chelating agent in a saturated wipe dispenser. Clean hands, surfaces, fixtures and tools without being required to leave the work area. Laboratory Certified to be effective in the removal of toxic metals from all surfaces, including the skin. Heavy and undetectable metals and contaminants are removed from the skin before absorption, preventing materials from being ingested into the liver, which can cause some forms of cancer. Used, as a service pack, at the work station, or any location where field services/operators/technicians hands become soiled.

Dual action wipes: feature a smooth side for lighter clean-ups and a textured side for tougher jobs.

Product Highlights:

- Effective in the removal of toxic metals
- Leaves hands soft & clean
- Residue Free - Amine, Salt, & Silicone Free
- Enhances production/work time
- Fast drying
- Certified Ionic Contamination Test results show to be well within the ANSI/J-STD-001 Industrial and MIL-STD-2000 Military Standards adopted to maintain acceptable levels of "cleanliness" in the manufacture of electronic assemblies, circuits and components

Toxic Metal reduction:

More than the right formulas - the right chemistry. Due to a unique solvent and surfactant blend, coupled with a powerful chelant, our Hand Cleaner, in addition to being a general purpose cleaner, has been Laboratory Certified to be effective in the removal of lead and other toxic metals from all surfaces, including the skin. In addition, it also removes dirt, oil and grease.
